

CIRCOR To Exhibit Diverse Flow Control Portfolio At AchemAsia

(May 15, 2019) – CIRCOR's expanding relationship with Asia-Pacific customers kicks off next week in Shanghai at AchemAsia, May 21-23. The company will display a range of highly engineered valve, pump and system solutions to meet customers' dynamic needs for flow control in industrial applications.

Visitors to CIRCOR at Stand 7.1/C31 will be able to meet with industry experts and see a diverse portfolio of pumps, control valves, automatic recirculation valves, regulators and other flow control products and systems designed, manufactured, marketed and supported by best-in-class, historically significant product brands, including:

- Coming in June, Allweiler's SNA series of three-screw lube oil pumps and systems meeting API 676/682 standards, a plug-and-play solution for every application that requires oil lubrication
- RTK's REflex Quick-Change Seat with Fail-Safe Function, offering all-in-one maintenance ease and operation control in one control valve
- A new solution from Schroedahl that promotes reliable system protection from overheating and cavitation, the TDL Automatic Recirculation Valve
- New lower cost control valve series, the flexible CIRCOR 3100 range, offering one common valve body and multiple internal options that can be packaged with CIRCOR's desuperheaters and steam conditioning valves.

"These are exciting times at CIRCOR, as we grow our relationships to support our customers in China and the rest of Asia," said Ashish Dutta, VP CIRCOR China and Industrial APAC. "We look forward to supporting and sustaining the vibrant OEM and EPC customer base in the region with our innovative portfolio of flow control solutions."
